

## FY2015 CHNA&HIP Progress Report

### Union County

#### Community Health Improvement Plan

GOAL	Strategies	Progress on Strategies
Reduce percentage of high-risk lead homes in Union County.	Educate home owners/landlords/apartment managers/parents.	Union County Public Health continues to offer lead prevention education to home owners/landlords/apartment managers and parents as needed. Local Healthcare Providers screen children for lead exposure and perform Blood Level Testing at age 1 and as needed. No new activities have occurred this reporting period.
		We continue to work with Union Co. Environmental Health, Healthcare Providers, MATURA, schools and parents to answer any questions and provide educational material about lead level results, and lead prevention.

GOAL	Strategies	Progress on Strategies
Ensure appropriate equipment and training are in place for all Union County agencies to be compliant with federal narrow banding regulations.	Include all Union county agencies that are affected by narrow banding requirements in pre-planning and collaborate to ensure full system conversion.	This Goal was achieved in July 2012.
